

# **Solar Cookers Unite!**

**FOR THE**

## **First Annual International Northern Tier Smoke-Free Solar Cookout Day!**

**August 2, 2008**

**(1<sup>st</sup> Saturday in August)**

**Solar cooking is an idea whose time has come, and it's time to show the world, so let's have a holiday!**

**It will be midsummer, with good sun likely for much of Earth's northern tier. If you cook with sunshine, use your cookers in a park or town square or other public place on the first Saturday in August, so other people can have a chance to see and learn about this wonderful technology. Join other suncookers in your town or region for a smoke-free solar cookout celebration. Let's see how many cookers we can set out to light up the world!**

**If you don't yet know how to cook with sunshine and would like to join in the fun, go to <http://solarcooking.org/> for comprehensive information on building and using solar cookers.**

**It's Fun to Cook With Sun!**
